User will get benefit in joining our Teera-Mongkol Industry website and will be informed of any news released from Teera-Mongkol Industry Co., Ltd. Board.

It is the greatest time to present the official website for Teera-Mongkol Industry Co., Ltd. Teera-Mongkol Industry Co., Ltd. are proudly to announce the official website for GATA, where user will gain lots of benefits and would be able to post any specific information. This website will be kept updating every week and will post all the newest products that we released. Any information such as project achievement, research area and technology news from GATA factory will be posted for our customers.

Theerasak Prasitratanaorn, IT Manager, stated on May 25, 2006 about the future and trends of the company. As he mentioned, the company will grow up and will start to integrate and implement all IT technologies to support the concept "Lighten Up Your Life", which means the company has a year plan to start integrate the computer system, including ERP system, website development, and web e-commerce to improve the performance of Teera-Mongkol Industry Co., Ltd. Teera-Mongkol Industry website or GATA website is one of our IT projects that is officially launched today.

"Teera-Mongkol Industry Co., Ltd. grows and improves very fast from year to year. We has never been stopped improving the company; however, we have not increased the line fast enough to serve the current market. We have recently increased our line production by investing a lot this year. At this time, our company board has stated the clear vision to not only invest in the physical production line but will also invest in the company structure to support the future plan of our company", he said.

The launch of GATA website clearly states that Teera-Mongkol Industry is the leader in manufacturer for ballast, transformer, HID products, etc. Once the website is official released, Teera-Mongkol Industry will periodly inform all the news and update from our company board. The official GATA website is one of the marketing project from Teera-Mongkol Industry Co., Ltd. In the near future, it is still possible that Teera-Mongkol Industry may open the e-commerce section to provide the lighting market in Thailand.
